

Sustainable Choices For a Better Tomorrow

ELKAY®

When we say, “we’re in business forever,” we mean it. We’re here to nurture our people and planet for generations to come. By taking an active role in carefully sourcing reliable and safe materials, optimizing our products and processes, and empowering our employees, we are committed to making a positive environmental and social impact.

The Green Ticker™ on ezH2O® and ezH2O Liv® displays how many

BOTTLES SAVED

40,000,000

single-use plastic bottles are being saved

Our bottle filling stations contain **69% recycled material**

ezH2O® bottle filling stations encourage the use of

reusable water bottles

helping reduce plastic waste

Our stainless steel sinks and pads are

free from Red List chemicals

and toxins

Our stainless steel sinks contain **78% recycled material**

Sensor-activated, hands-free filling

prevents wasted water

and spills, and is more hygienic

Many of our drinking fountains and bottle filling stations are made from

recycled materials

and can be recycled, including the packaging!

Our stainless steel sinks are

100% recyclable

Elkay has donated over **250 ezH2O® units**

to schools in need through Fountains for Youth
